ABOUT ME

Computer Engineering graduate (Final Degree Project pending) with experience in backend development and agile environments. I am characterized by an analytical mindset and strong problem-solving orientation, consistently aiming to deliver efficient, maintainable solutions aligned with project objectives. Responsible, consistent, and highly adaptable to new technological environments.

TECH SKILLS

Backend development with C#
Object-oriented programming and best practices
Relational database queries (SQL)
Analytical thinking and structured problem solving
Teamwork in Scrum environments
Fast adaptation to new technologies and tools

PROFESSIONAL EXPERIENCE

APRIL 2025 – JANUARY 2026 | BACKEND DEVELOPER | EASY TECH GLOBAL

Development and maintenance of backend services using C#. Implementation of new features and improvement of existing processes. Collaboration within a Scrum team, actively participating in daily meetings and technical coordination.

JULY 2022 – JUNE 2023 | INTERNAL SALES & MANAGEMENT SUPPORT | TRONIK PARTS DISTRIBUTION S.L.

Incident management, customer support, and logistics coordination. Experience solving operational issues and working under pressure. Development of organizational skills and a practical approach to complex situations.

JULY 2023 – OCTOBER 2023 | RESTAURANT ASSISTANT | LA TAGLIATELLA

Teamwork and customer service in a dynamic environment. Strengthening communication skills and adaptability.
